One PID

	Binary		Text	
	Size (Bytes)	Time (seconds)	Size (Bytes)	Time (Seconds)
Case 1	204	0.08	160	0.10
Case 2	340	0.07	180	0.14
Case 3	210	0.07	180	0.13
Case 4	220	0.09	170	0.11
Case 5	290	0.08	190	0.10
Average	275	0.08	180	0.12
Standard Deviation	35	0.01	20	0.02

All PIDs

	Binary		Text	
	Size (Bytes)	Time (Seconds)	Size (Bytes)	Time (Seconds)
Case 1	100012	0.2	100001	0.55
Case 2	100123	0.3	90091	0.67
Case 3	110023	0.4	99000	0.68
Case 4	110004	0.3	94500	0.98
Case 5	110204	0.4	93000	0.8
Average	100549	0.3	95000	0.75
Standard Deviation	10000	0.1	5000	0.79

Through the findings, I can concluded that binary files take up more space than text files on average, but they are quicker in terms of writing data.
